Light Workers World – Voice Acting *"Nadina did an excellent job on a Voice Over project of mine. I had 35 people apply for the job and she stood out by far. Her excitement and clarity shine through in her voice. I love the wonderful nuances in expression she is capable of and the way she is happy to try different styles until it comes out perfect. She really went the extra mile and I am extremely happy with the result!" ~Michael Alperstein, Director of Lightworkersworld.com*
