Born and bred oops, I mean raised here in good ole Des moines, Iowa! If I'm not training, creating, taking class or being a mother, I'm usually at the Polk County Detention Center where I specialize in behavioral intervention. With a psychology degree from Drake University, I find joy in working with marginalized youth who often need guidance with emotional, social and interpersonal skills. I have an extremely athletic background, I competed in Division 1 athletics as a 100m hurdler. I kid you not, I am no stranger to hard work, opposition, mental endurance, winning and losing! I love learning and although this resume highlights skills needed for the camera, I've always led with a student first mentality. Learning about all aspects of the entertainment industry as a dancer, actor, model or creative, in front of or behind the camera, are goals and skills I'm striving to obtain.
